

WaiverPro Application Design Guidelines v1.0

1. HEADER COMPLIANCE:

- The main workspace must include a visible Heading 1 (H1) at the top reading exactly "WaiverPro Automated AI Auditor".
- A subtitle string "PDF Design vs Live Website Checker" should be present directly below the main heading.

2. BUTTON AND INTERACTION:

- There must be an action button with the text "AI Agent Checking...".
- Background processing states must show a blue spinning loader.

3. ACCESSIBILITY RULES:

- All table data must have proper table headers (TH) for columns.
- Form input fields must not be left hidden and must have corresponding labels.
